Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over prior of record because none of the references in alone or in combination discloses:

+++ A cable exit trough mountable to a lateral trough section, the lateral trough section including an upstanding side having substantially uniform height and terminating at a top edge, the exit trough comprising:

- an upper portion having a curved bottom trough surface and two curved side walls extending from opposite sides of the bottom trough surface to define a cable exit pathway, the curved bottom trough surface being sufficiently curved to maintain a cable minimum bend radius;

- the cable exit trough being releasable mountable to the lateral trough section;

wherein, when mounted to the lateral trough, the cable exit pathway extends transversely over the top edge of the upstanding side of the lateral trough section so that cable can be routed upwardly from the lateral trough section over the top edge of the lateral trough section.

+++ A cable routing system comprising:

- a lateral trough section, the lateral trough section having a bottom portion and two upstanding sides extending from the bottom portion to define a cable

Art Unit: 2874

pathway, at least one of the upstanding sides having substantially uniform height and terminating at a top edge spaced from the bottom portion; and

- a cable exit trough, the cable exit trough including a cable guiding portion having a curved cable exit surface and two side walls extending there from to define a cable exit pathway;

- wherein the cable exit trough is releasable mountable to the lateral trough section with the cable exit pathway extending over the top edge of the lateral trough section so that cable can be routed upwardly from the lateral trough section, and then over the top edge of the lateral trough section.

- wherein the cable exit trough mounts to the lateral trough section without cutting the top edge and corresponding upstanding side.

The Germany reference (DE-3,742,448) discloses a cable channel comprising a boat-shaped part having a side wall that are separated by slit in regular interval, wherein a cable outlet part positioned two substantially vertical side walls bent outwards, and a third side wall reaching from the bottom. This reference does not disclose the cable exit trough having all the underline limitations, as disclosed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
